

Advisory

# GDPR – Data Protection Services

## GDPR client duty

Obligation to constantly ensure that the rules set out in the Regulation are followed and ability to document its compliance with these rules at all times.

Manage Risks.

Non-compliance will be reported to the CNPD.

## Why EBRC?

EBRC has expertise in a variety of sectors and successfully adapts its services to different industries.

Risk based approach using an application (for efficiency & defined referentials)

## Business Benefits

The EBRC approach aims to be:

- Simple & pragmatic
- Agile & iterative
- Easy and adaptable

## Deliverables

Depending on the mission:

- Tools for Dashboards and KPIs
- Tools for deployment of DPMS
- Advisory and Compliance Control reports
- Action Plan
- Reports for Audit and Senior Management

## Key Features

Use of DPMS: Data Protection Management System

## Solution Overview

With the GDPR coming in effect since the 25 May 2018, every organization needs to assess their position and establish their GDPR compliance program. This can be a complicated process requiring a set of specialized and complementary business, technology, compliance and legal skills and experiences.

EBRC approach is based on our field experience and linked to the operational and business requirements of our Clients.

We can assist Clients with a wide range of GDPR services including:

- DPO as a Service
- DPO Assistance / GDPR Officer
- Data Protection Management System
- ISO 27701 – Certification Support
- Preparation / assistance in crisis management
- Targeted services (Compliance Control, Gap Assessment, DPIA, Documentation Framework, etc.)
- End-user awareness (e-learning)

Our services allow Clients to improve their GDPR compliance, and transform their GDPR program into a Plan-Do-Check-Adjust (PDCA) cycle of continuous improvement.

The deployment of the DPMS will provide to the Client the tools to:

- Capture information regarding the GDPR processes and activities
- Identify non-conformities
- Regularly distribute information to stakeholders about the status, progress, and performance of GDPR compliance processes

The Client will benefit of:

- Better governance: monitor the implementation of policies. Minutes away in knowing the status of any GDPR topic
- Efficiency: identify and justify to the management the areas of improvement
- Increased engagement including from business owners and senior management
